DETAILS OF TESTED CAR

SPECIFICATIONS

Tested model	Qoros 3 Sedan 1.6T 'Elegance', LHD
Body type	5 door hatchback
Year of publication	2013
Kerb weight	1425kg
VIN from which rating applies	applies to all Qoros 3 Sedans of the specification tested

SAFETY EQUIPMENT

Front seatbelt pretensioners

Front seatbelt load limiters

Driver frontal airbag

Front passenger frontal airbag

Side body airbags

Side head airbags

Speed Limitation Assistance

Electronic Stability Control

Seatbelt Reminder

COMMENTS

Adult occupant

The passenger compartment remained stable in the frontal impact. Dummy readings indicated good protection of all body regions for the passenger. Protection of the knees and femurs was good for the driver and passenger and Qoros showed that a similar level of protection would be provided to occupants of different sizes and to those sat in different positions. In the side barrier test, the Qoros 3 Sedan scored maximum points with good protection of all body regions. In the more severe side pole test, protection of the head and pelvis was good and that of the chest and abdomen was adequate. The seat and head restraint provided good protection against whiplash injury in the event of a rear-end collision.

Child occupant

Based on dummy readings in the impact tests, the Qoros 3 Sedan scored maximum points for its protection of both the 1½ and 3 year dummies. In the frontal impact, forward movement of the head of the 3 year dummy, sat in a forward-facing restraint, was not excessive. In the side impact, both dummies were properly contained by their restraints, minimising the likelihood of dangerous head contact with parts of the car interior. The passenger airbag can be disabled to allow a rearward-facing restraint to be used in that seating position. Clear information is provided to the driver about the status of the airbag and the system was rewarded. All of the child restraints for which the car is designed could be properly installed and accommodated in the car.

Pedestrian

The bumper provided good protection to pedestrians' legs in all areas tested and the car scored maximum points in this area. The front edge of the bonnet provided predominantly good protection. The protection provided by the bonnet to the head of a struck pedestrian was mostly good or adequate, except for the stiff windscreen pillars.

Safety assist

Electronic stability control is standard equipment on the Qoros 3 Sedan, and met Euro NCAP's test requirements. The car has a seatbelt reminder system as standard for the front and rear seats. A driver-set speed limitation system also comes as standard equipment.
