BEST IN CLASS 2019
Supermini

Visual identity guidelines
If Euro NCAP has tested enough cars in the previous year, Euro NCAP publishes a list of those cars that have performed best in their respective categories. Euro NCAP Best in Class aims to provide consumers a reliable, concise, easily-understood indicator of the safest cars tested in a specific category in a specific year.

The Best in Class award is adapted every year according to the year of the test, make & model and category.
