Car details

Tested model	Landrover Discovery III, 2.7 V6 diesel SE, LHD
Body type	Translation not found Translation not found
Year of publication	2006
Kerb weight	2637kg

Comments

Front impact

Structures in the dashboard presented a potential risk to the knees of both driver and passenger.

Side impact

The Discovery III scored maximum points for its performance in the side impact and pole tests.

Child occupant

The passenger airbag could be deactivated to allow rearward-facing child restraints to be used in the front passenger seat. However, the information regarding the status of the airbag was not sufficiently clear to meet Euro NCAP's requirements. The presence of ISOFIX anchorages in the rear outboard seats was not clearly marked.

Pedestrian

The bumper and the leading edge of the bonnet scored no points for the protection they offered to pedestrians.
