Car details

Tested model	Honda Civic IMA, RHD
Body type	4 door sedan
Year of publication	2007
Kerb weight	1297kg
VIN from which rating applies	JHMF D36206S202871

Comments

Front impact

The passenger compartment remained stable during the impact. However, there was insufficient pressure in the driver's airbag to prevent the dummy's head from making contact with the steering wheel. Structures in the dashboard presented a risk of injury to the knee and femurs of both the driver and passenger.

Child occupant

The presence of ISOFIX anchorages in the rear outboard seats was not clearly marked.

Pedestrian

The Civic Hybrid scored maximum points for the protection offered to pedestrians' legs by the bumper and the front edge of the bonnet.
